

IR Simple Security Effort 2 (30 day) – Email

The first step of security? Controlling your doors.

It really is that simple. Add electronic access controls and you're in charge of who goes where, and when... and you can change privileges whenever you need to, even if you're away from the office. Isn't that exactly the kind of convenience, security and freedom you'd like for your new office?

Find out more in our complimentary guide, *3 Simple Steps to Office Security*. [Get your copy now.](#)

Simple. Affordable. That's the Schlage approach to office security.

As a leader in security for over 90 years, Schlage has designed access control systems for some of the most recognizable buildings in the world. Today, we've used our expertise to create attractive, functional, easy-to-manage security solutions that are affordable for offices of any size—including your office.

And because every office is unique, our service includes a local team that will answer your questions, make installation easy, and continue to fulfill your security needs in the future. Find out more when you ask for your office security guide. [Get your copy now.](#)

IR Simple Security Effort 3 (15 day) – Email

It's not too late to upgrade security in your new office

You've had a lot to deal with over the last few weeks with your office move. The good news is, there's still time to give your people and your property the protection they need, while making your own job easier.

To find out more, just schedule a consultation with a Schlage security professional. There's no charge or obligation, so [set up your appointment now](#).

No-hassle ways to secure your office, from Schlage.

As a leader in security for over 90 years, Schlage has designed access control systems for some of the most recognizable buildings in the world. Today, we've used our expertise to create attractive, functional, easy-to-manage security solutions that are affordable for offices of any size—including your office.

We'll show you why state of the art security doesn't have to be difficult or expensive to install or maintain. No running extra wires, no calling locksmiths to rekey doors. And if you want to upgrade your system now or later—for example, add video surveillance for added protection—you can build on your Schlage system instead of replacing it.

You've put a lot into your new office. Now take the final step to keep it secure. [Set up your security consultation with a Schlage professional today](#).

SET UP YOUR APPOINTMENT

Simple security from Schlage.

With web-based access control, Schlage puts you in control of your doors right from your desktop. No special software or training is required. And you can even monitor and control your system from outside the office.
